Since: Mar 31, 2011 5:28 AM possibilities are near nonexistent! Since: Mar 31, 2011 10:03 AM roger Since: Mar 30, 2011 10:07 AM Rc16 I just did a search at several sites, and there were several different viruses that seemed to be active. There was a few that did not install. And there were several that download a program, and then cause a virus. I ran real-time scanner, which did not report anything. I am now just going to assume that the virus did not get into the machine. However, just to be safe, I am going to re-scan with a different disc, and try to reinstall. I know that noones going to fix a \$30 printer, but I did learn something.
