"As an early adopter of motion capture technology, FIFA is excited to use player data collected for gameplay innovation," said Jeffrey Vilharouly, SVP of EA SPORTS technologies. "We used motion capture to analyze how players move, tackle, intercept and aerially challenge to accurately represent their influence on the game." The new FIFA for PS4 and Xbox One introduces a global audience: in addition to the previously available English and Spanish languages, Fifa 22 Product Key also features Portuguese, German, French, Italian, Spanish, Japanese, Korean, Chinese, Russian and Arabic to provide fans from around the world with a choice of languages and dialects to enjoy the game. Fifa 22 2022 Crack also offers more customization options to players, with new options for players' ratings, tactics, team line-ups, stadium settings and tactics, and more. To choose from a global audience of voices, fans can now adjust the pitch announcer's voice pitch based on the players' nationality. The announcer also refers to the national anthem of the country players are from while they are selected as starting or substitute players. And for the first time ever in any FIFA game, fans can unlock special editions of the game with custom player portraits, t-shirts, flags and licensed in-game apparel. The special editions are available for a limited time only. With its new technology, FIFA 22 will allow players to more naturally feel the physicality of dynamic movement through the ball, more realistically experience dangerous aerial duels and tackle a player on the ground, see the pitch surface more dynamically, more accurately maneuver and strike through the ball, feel the ball's air drag, and more. FIFA 22 will be available on March 27 for PlayStation & 4 computer entertainment system. New Features - Micro Mii<sup>TM</sup>: Experience new ways to play in the new PS4<sup>TM</sup> and Xbox One versions of the FIFA franchise. With the return of the legendary Micro Mii<sup>TM</sup>: customization in FIFA 22, you can now customize your look, play in-game or even mak

#### <u>What's new in Fifa 22:</u>

- FIFA 22 introduces "HyperMotion Technology," which uses motion capture data from 22 players to power gameplay. Collect player data from up to 22 real-life footballers during a high-intensity match in a motion capture suit while being photographed and tracked in 360 degrees. The data is captured during the match and interpreted to create new Al-driven behaviors. Use the data to complement your movements, avoid danger, and increase the chances of scoring.
- FIFA 22 includes four all-new modes: "Run the Gamut", "Exhibition", "Presets" and "The Journey"; features a new Career Mode and Player Journey across clubs; ranks and awards off contracts based on attributes and reputation, and rewards players, coaches and clubs with useful items.
- Player traits such as aerial ability, speed and vision are now the dynamic key attributes across all abilities, as well as a new and more nuanced influence from stability, dribbling, running speed and acceleration.
- New and existing game modes include a revamped Pro-Am mode; "Twin Spirit" mode offers an extra ball to tactical challenges, gives a visual boost to weak links, and creates a more communicative environment. In "Agony Moments" (Goalkeeper Showdown), every single shot lands, EVERY SINGLE ONE, while new "Playmaker Classes" helps to elevate your players' development. New Career Mode features fewer, but more meaningful game events, so that your Career path is more interactive.
- New "HyperMotion", giving each player an in-game dynamic that combines pass and shot location with small markers on feet and body to replicate real-world player movement.
- New and improved stadium visuals, player kits, player editing (add features to create original kits), improved match-making, new combat options, and immersive goal celebrations.
