Quality of life and functioning in patients with ankylosing spondylitis treated with tumor necrosis factor inhibitors. tumor necrosis factor inhibitors (TNFi) are effective in the treatment of ankylosing spondylitis (AS). There is conflicting evidence as to the effects of TNFi on health related quality of life (HRQoL) and functioning in AS. Five hundred forty-four patients with radiographic active AS were followed at six Dutch rheumatology centers. HRQoL was assessed with the AS-specific HRQoL (ASQoL) questionnaire. Pain was measured with a visual analog scale (VAS). Functioning was assessed with the work productivity and activity impairment questionnaire (WPAI). HRQoL and functioning impairment was compared at baseline, 6 months, and 2 years by group (etanercept, adalimumab, golimumab, and certolizumab). HRQoL decreased over time for all groups, but was significantly lower during the second year of treatment

**===== The snow was falling very quickly and when it did a couple of chunks hit her nose. The blizzard was already overcast and gray when they left the pub at Westmont, but it would soon become pitch black. Her heart was beating faster, but she couldn't even spot the milky glow of the moon that was shining through the thick clouds. She was bundled in her warm black hooded coat and her shoes were going through her pockets for a lighter, when she fished out a handkerchief and used it to blow her nose in. She could hear footsteps behind her; they were getting closer and soon she could make out the faint silhouettes of the Westmont clerks. It was one of them who had interrupted her conversation with her girlfriend earlier that evening. "Don't worry honey," she heard his fluffy gray beard say, when it passed the tip of her ear, "the duo will find themselves - sooner or later - in a situation where they will have to flee their safe place on the top of Mount Rigel. glacier's deadly ice cube." Amethyst eyes widening with alarm, she turned around and was about to warn her companion; there would be an avalanche in a few hours and they'd never find a place to spend the night. But just as she turned she noticed a large dark van approaching them from behind. It stopped next to the two of them and they all heard the click of the lock. Two mountain guard patrols stepped out, one from the white and the other from the black side of the mountain. "You must come with us," the two guards commanded them in amiably spoken American English. As she was lowered into the back seat of the sedan, she spotted a hand full of cheese sandwiches through the sliding window and felt a moment of regret, knowing that, if they had to travel in winter, it would take several days to reach the summit of Mount Rigel. Time stood still. Gita's dark brown eyes were wide open in panic
