The site also offered shareware applications for a limited number of customers, as well as a downloadable version of the Pro Arts Music Player, the music player included with versions of Macintosh operating systems prior to OS X. Digistump.com's name came from its use of the DigiTape medium in conjunction with its audio-visual live performance presentations. The DigiTape medium was marketed by Eastman Kodak as the "first digital audio/visual recording medium", and was the inspiration behind the Compaq Digital 7500 "videotext" record player. History Digistump.com's roots come from the DigiTape medium. By the 1980s, DigiTape could be played back on a stereo cassette recorder, a feature that caught on with computer and home video enthusiasts. In 1990, Grady Norton, the president of Digital Illusions and the inventor of the DigiTape medium, along with the company co-founder Mark Kern and a third partner, Andrew Tridgell, created the first Digital Tapes Digital Store located in Norton's home office. Later that same year, Kodak launched the first compact disc digital audio discs. In November 1991, DigiTape was renamed d0c515b9f4

The Do-Deca-Pentade Calcium-Pentade was released on June 21, 2010 in the United States. It is marketed as a dietary supplement intended to help increase bone mineral density and decrease the risk of osteoporosis. It is also marketed as a low-calorie replacement for sugar and artificial sweeteners. The Do-Deca-Pentade Calcium-Pentade can be found as the first ingredient on its label, followed by calcium citrate and vitamin D3. Like other calcium supplements, the Do-Deca-Pentade Calcium-Pentade is marketed to aid in the absorption of calcium through increased levels of citrate. The Do-Deca-Pentade Calcium-Pentade is also available in forms that have been formulated to increase its solubility, such as calcium citrate malate. Dietary Supplements: Calcium.
